

FOOD SAFETY POLICY

Zespri is committed to producing, sourcing and supplying safe fruit that meets customer and consumer expectations and all regulatory requirements for food safety.

To achieve this, Zespri commits to, and its suppliers are required to:

- ◉ Demonstrate commitment to food safety by fostering a sound food safety culture throughout the Kiwifruit Industry
- ◉ Comply with all applicable laws, regulations and customer requirements regarding food safety and consumer health in fresh produce and its production, handling, packaging, storage and transportation
- ◉ Ensure Good Agricultural Practice, including Integrated Pest Management, is a key element in fruit production and meets Zespri standards, regulatory and customer requirements
- ◉ Ensure all staff, contractors and suppliers are aware of their food safety responsibilities and, where appropriate, operate a certified food safety system that meets the Global Food Safety Initiative (GFSI) and Zespri standards
- ◉ Ensure every pack of Zespri fruit is uniquely identified and can be traced back to the orchard where it was grown, including primary packaging
- ◉ Immediately report any issue that could materially affect the food safety of Zespri products
